Spanning the gap

The Xerox 6204 is the right solution for big projects, small jobs and everything in between.

Xerox 6204 Wide Format Solution

Fast. Easy to use. Affordable. It's the ideal way to print, copy and distribute wide format documents. The Xerox 6204 produces 4 A1 prints per minute and scans at 3 ips. Warm up time is only 90 seconds and first copy out time is just 25 seconds.

Branch offices to construction site offices, the 6204's small footprint saves space. It provides superior image quality (600 x 600 dpi) and a touch panel interface that makes the 6204 intuitive to walk-up users.

Control your overhead.

By meeting the growing demand for distributed printing, the 6204 makes it possible to cost effectively utilise wide format documents at their point of need. There's no need to outsource wide format documents to centralised printing facilities and then waste valuable time waiting for them to come back. With benchmark features, outstanding reliability and a competitive price, the Xerox 6204 offers extraordinary value.

Maximise your productivity by doing more in less time while reducing costs.

- Wide format in a small package
- Fast printing, copying and scanning (optional)
- Easy to use
- Concurrent processing lets you scan at 600 dpi while you print.
- Quick starts (First Copy Out Time: just 25 seconds)
- Seamless workflow integration
- Superior image quality
- Low total cost of operation
- Superior reliability

The Solution that can grow with your needs

Flexible printer copier-printer configurations provide solutions for a variety of work environments.

- Printer
- Printer/Copier

The 6204 Printer Copier is available with optional scan to file and scan to network capabilities. Both configurations can be upgraded from one-roll to two-rolls for increased capacity.

A solution that's never underfoot.

The Xerox 6204 has one of the smallest floorspace requirements on the market measuring

- 1325mm L x 560mm W x 1100mm H

It works the way you work.

The embedded controller allows virtually seamless integration into your workflow.

- Interface: 10 Base T, 100 Base TX
- Protocol: TCP/IP (ftp, lpr)
- Supports multiple data formats and print drivers.

The tools you need, where you need them.

Powerful, easy to use features for experts as well as those with minimal training.

- Intuitive control panel
- Touchscreen user interface

Scan-to-net/file (optional)

The on-board scanner offers concurrent scan and print functions that can save hours over the life of a project.

- Scan at 3 ips.
- Optical resolution of 600 x 600 dpi.
- Handles paper sizes up to 36" width
- Recognises all colours and all gradations to enable outstandingly sharp greyscale images.
- Enables sharing and printing of files on your network.
