

MASTERCLASS MATT PHOTO CANVAS 340

matt 4851, 340 g/m²

Premium matte canvas for exclusive photo and art applications

The MASTERCLASS Matt Photo Canvas 340 meets the highest quality standards. The matt coating prevents annoying reflections and enables high-contrast prints with a large color gamut. Thanks to its special, flexible fabric with 2: 1 weaving, it can be processed easily. The subtle, slightly irregular structure is reminiscent of the surface of classic artist canvas. Typical applications are art prints, reproductions / replicas of works of art and paintings, artistic photographs, landscapes in exhibition quality and interior decoration.

Advantages

- Excellent colour reproduction
- No optical brighteners
- Light, irregular structure resembles the surface of a classic artists canvas
- Extremely flexible material
- Almost no reaction to climatic fluctuations, which ensures problem-free printing and no loss of tension when stretched on frames
- Splashproof surface

General tips

The ideal storage conditions are a relative humidity of 35-65% and temperatures of 10-30°. We recommend that cotton gloves are worn to prevent the transfer of dirt, moisture and oils from the skin, as these can greatly impair the print quality. We recommend the use of a protective varnish as extra protection against mechanical and environmental influences (UV rays, ozone, dirt, etc).

Physical data

Name	Value	Norm
Weight [g/m ²]	340	ISO 536
Thickness (paper) [µm]	490	ISO 534
Whiteness, CIE D65/2°	85	ISO 11476
Weave structure	2:1
