VIVALUX BACKLIT HEAVY LATEX 200

matt 3747, 200 µm

Stable backlit film for lightbox advertising

This matt, coated polyester backlit film has been specially optimised for printing with HP latex inks. In combination with these inks, the film enables very high colour density and brilliance, short drying times and long-term durability. The resulting prints are waterproof and therefore ideal for outdoor use. The thickness of 200 µm enables particularly efficient placement in lightboxes.

Advantages

- Optimised for HP latex inks
- Outstanding brilliance in reflected or transmitted light
- Splashproof prints
- High rigidity
- Long-term durability
- High dimensional stability

General tips

The converting and storage should take place in a climate from 35 to 65% to relative humidity at temperatures of 10 to 30°C. Keep the product in the original packaging (cardboard box and PE bag). It is always recommended that cotton gloves be used when handling InkJet coated materials to avoid fingerprints.

Physical data

Name	Value	Norm
Thickness (film) [µm]	200	ISO 4593
Weight [g/m ²]	280	ISO 536
Opacity [%]	70	ISO 2471

Technologies

Properties
